How Downton Abbey changed with the times

We're spending a getaway weekend in Yorkshire with our favorite *MASTERPIECE* family and their friends and servants. From start to finish, there are so many wonderful moments - and also plenty of history. Here's how the Crawley family played their part in the technological and social changes that swept the country during the early 1900s.

1914: A telephone is installed at the Abbey.

Alexander Graham Bell was granted a patent for the telephone in 1875, but in 1899, only six out of 1,300 councils in Britain had telephone systems.

Season 1 - 3/17 8PM to 3/18 4AM

1917: Downton Abbey becomes a convalescent home.

The War Office received thousands of offers from manor homes, schools, and other institutions to house wounded soldiers.

Season 2 - 3/18 4AM to 4:30PM

1920: Cora's fortune is lost when the Grand Trunk Railway goes bankrupt.

The Canadian company defaulted on loan payments in 1919, its stock was declared worthless in 1921, and the railway was nationalized in 1923.

Season 3 - 3/18 4:30PM to 3/19 5AM

1922: Mrs. Patmore gets a refrigerator.

Most homes relied on an icebox; only about 10 percent of British homes had electricity in the early 1920s.

Season 4 - 3/19 5AM to 5:30PM

1924: The Crawley family gets a radio to hear King George V speak.

The first complete radio was built in 1894. The king's first radio address made him a beloved monarch.

Season 5 - 3/19 5:30PM to 3/20 7AM

1925: Bertie Pelham flies to Morocco.

Commercial aviation only began in Britain in 1919, and was regulated by the government beginning in 1922.

Season 6 - 3/20 7AM to 6:30PM

If the Dowager Countess asks you:
"What is a weekend?"

You can answer:

"It's for watching *Downton Abbey* on *MASTERPIECE*!"

Weekends are also for royalty!

Don't miss the season finale of *Victoria* on *MASTERPIECE* on 3/5 at 9PM!

Weekends are also for mystery!

Catch up on the most recent season of *Sherlock* on *MASTERPIECE* with a marathon on 3/12 from 6PM to 11PM.

Nature: Yosemite

March 29 at 8PM

Yosemite Valley is a land forged in wildfire and sculpted by water - and the national park requires a delicate balance of the two elements. As the climate changes and temperatures rise, water is scarcer and the threat of fire is more common. Join scientists, experts, and adventurers as they trudge through mountains of snow, climb tall trees, and soar high in the air to see how global changes are affecting one of California's treasures.

American Experience: The Great War

April 10, 11 & 12 at 9PM

Discover how World War I transformed America through the stories of African-American soldiers, feminist activists, Native-American "code talkers," and others whose participation in the war to "make the world safe for democracy" has been largely forgotten.

*It brings us together
and that's good for
our world.*

Turn to KVIE for shows like *Rob on the Road*, *Studio Sacramento*, and *ViewFinder* that help you stay informed about issues impacting our region, state, and beyond.
